ABSTRACT

This report for fiscal year 1975 presents the statistical tables related to federal support for academic science. Names of recipients and their geographical location are included. Information is also given on research and development support to federally-funded centers and non-profit research organizations. (SA)

LETTER OF TRANSMITTAL

Washington, D.C.

DEAR MR. PRESIDENT:

I have the honor to transmit to you the statistical portion of the report *Federal Support to Universities, Colleges, and Selected Nonprofit Institutions, Fiscal Year 1975*, as required by the National Science Foundation Act as amended through April 1973.

This year, as in 1974, we are submitting the appendix tables separately in order to expedite the dissemination of the data. The analytical portion of the report will be transmitted later in the year.

Respectfully,

R. C. Atkinson

Richard C. Atkinson
Acting Director
National Science Foundation

The Honorable
The President of the United States
Identical letters have been sent to:
The President of the Senate
The Speaker of the House of Representatives

GENERAL NOTES

- Data published in this report are based on NSF's Survey of Federal Support to Universities, Colleges, and Selected Nonprofit Institutions, Fiscal Year 1975. The reporting system is derived from that originally established by the Committee on Academic Science and Engineering of the Federal Council on Science and Technology, and formerly known as the CASE Survey. An analytical report on the survey findings will be published later this year.

- The figures presented in these tables reflect the total fiscal year 1975 obligations of 14 Federal agencies accounting for an estimated 95 percent of all Federal obligations to institutions of higher education in the United States, and for over 99 percent of all Federal obligations for research and development to such institutions. It should be noted, however, that these proportions may not apply to any individual institution, as some institutions receive significant portions of their funding from agencies not included in the survey, such as the Department of Justice, the Consumer Product Safety Commission, or the Arts and Humanities Foundation. Agencies not included in the survey system obligated a total of only $16 million to academic institutions for research and development.[1]

- "Obligations" are amounts budgeted for grants and contracts during a fiscal year (July 1 to June 30), regardless of when the funds were actually spent by the recipient institution. Thus, "obligations" differ from "expenditures" in that the latter refers to funds actually spent during the fiscal year. The following categories of funds are excluded: loans, agency support of Federal employee training and development activities, and all forms of indirect support such as funds allocated to State agencies, even if the final destination of such funds is known to be an institution of higher education.

- Interagency transfers of funds are reported by the agency which actually makes the award to an institution rather than by the original source. For example, funds transferred from the Department of Agriculture to the Department of Commerce and then obligated to a university would be shown under the Department of Commerce. In this respect the present survey differs from the annual series, *Federal Funds for Research, Development, and Other Scientific Activities,* also published by the National Science Foundation. In the *Federal Funds* surveys, obligations are to be reported by the originating agency.

- **Academic science** includes all obligations for research, development, R&D plant, education (both graduate and undergraduate), and dissemination of information in the scientific and engineering fields. Academic science obligations are distributed among the following six categories:

---

[1] Based on data presented in National Science Foundation, *Detailed Statistical Tables, Federal Funds for Research, Development, and Other Scientific Activities, Fiscal Years 1975, 1976, and 1977, Volume XXV* (NSF 76-315) (Washington, D.C. 20550).

- *Research and development* includes all research activities, both basic and applied, as well as all development activities, which are supported at universities and colleges. *Research*, in the context of science and engineering, is defined as scientific inquiry. It includes basic research, in which the investigator is concerned primarily with gaining a fuller knowledge or understanding of the subject under study; and applied research, in which the investigator is primarily interested in a practical use of the knowledge or understanding to meet a recognized need. *Development* is defined as the systematic use of knowledge gained from research, directed toward the production of useful materials, devices, systems, or methods, including design and development of prototypes and processes. Research and development exclude routine product testing, quality control, experimental production, mapping and surveys, collection of general-purpose statistics, and activities concerned primarily with the dissemination of scientific information. Research and development in the arts and humanities are not included in this category but are included in "nonscientific activities."

- *R&D plant* includes all projects whose principal purpose is to provide support for the construction, acquisition, renovation, modification, repair, or rental of facilities, land, works, or equipment for use in scientific or engineering research and development. A facility is defined broadly to include any physical resource important to the conduct of research or development. All costs—direct, indirect, and related—are included.

- *Facilities and equipment for instruction in the sciences and engineering* includes all programs whose principal purpose is to provide support for the construction, acquisition, renovation, modification, repair, or rental of facilities, land, works, or equipment for use in instruction in science and engineering.

- *Fellowships, traineeships, and training grants* include programs which are directed primarily toward the development and maintenance of scientific and technical manpower. The total amounts pertaining to such awards (stipends and cost-of-education allowances) are reported in terms of the institution chosen by the recipient. Excluded are projects which support research and educational institutes, seminars, and conferences such as teacher training activities provided through teacher institutes, short courses, research participation, and inservice seminars; activities aimed at the development of educational techniques and materials for use in science and engineering training; and programs which provide special opportunities for increasing the scientific knowledge and experience of precollege and undergraduate students. These activities are included in "other science activities" and "nonscience activities," depending on the field.

- *General support for science and engineering* includes activities which provide support for nonspecific or generalized purposes related to scientific research and instruction. Such projects are generally oriented toward academic departments, institutes, or institutions as a whole, and range from support provided without any specification of purpose other than that the funds be used for scientific activities, to projects that provide funds for activities within a specified field of science without specifying purpose, or for a certain type of activity without specifying the field. NIH's Biomedical Sciences Support Grants and General Research Support Grants are examples of these types of programs.

- *Other science and engineering activities* include all academic science activities that cannot meaningfully be assigned to one of the preceding five categories. Examples include obligations in support of technical conferences, short sources for the training of science teachers, etc.

- **Nonscience activities** include all other obligations which are not included in the six science categories defined above, but which represent direct funding (excluding loans) from a Federal agency to an academic institution for activities or purposes not specifically related to science and engineering. Included are all obligations for research, education, and facilities in the arts and humanities.

- Federal obligations to universities and colleges do not include funds obligated to Federally Funded Research and Development Centers (FFRDC's) administered by academic institutions. Funds for these organizations are shown separately in tables B-32, B-33, and B-34.

- The Federal obligations shown in table B-35 for 178 selected nonprofit research institutes, and in table B-36 for the 7 nonprofit-administered FFRDC's, represent about 89 percent and 92 percent, respectively, of the total amounts obligated to these types of institutions by all agencies of the Federal Government.[2]

- In general, hospitals, professional and technical societies, academies of science, museums, trade associations, and philanthropic foundations are not included in this study. These types of nonprofit organizations accounted for an estimated 23 percent of all Federal support to nonprofit institutions other than universities and colleges in 1975.[3]

- Statistics shown in these tables may not add to totals or subtotals because of rounding. Similarly, percents may not add to 100.

- Requests for additional information about the results of the survey may be addressed to J. G. Huckenpahler, Division of Science Resources Studies, National Science Foundation, Washington, D.C. 20550.

---

Overall Summary

B-1. Obligations of selected Federal agencies to universities and colleges, by type of activity and agency: FY 1963-75 1
B-2. Obligations of selected Federal agencies to universities and colleges, by agency and type of activity: FY 1975 3

Geographic Distribution

B-3. Total obligations and number of recipient institutions by type of activity: FY 1975 4
B-4. Total obligations by agency: FY 1975 7
B-5. Academic science obligations by agency: FY 1975 8

100 Institutions Ranked in Order of Amount Received

B-6. By type of activity: FY 1975 9
B-7. By agency: FY 1975 11
B-8. Academic science by agency: FY 1975 13
B-9. Research and development by agency: FY 1975 15
B-10. Fellowships, traineeships, and training grants by agency: FY 1975 17
B-11. General support for science by agency: FY 1975 19
B-12. Facilities and equipment for instruction in the sciences and engineering by agency: FY 1975 21

Field of Science

B-13. Research and development by agency: FY 1975 23
B-14. HEW obligations for research and development by component: FY 1975 24
B-15. DOD obligations for research and development by component: FY 1975 25
B-16. Research and development to the 100 universities and colleges receiving the largest amounts: FY 1975 26
B-17. Fellowships, traineeships, and training grants by agency: FY 1975 28
B-18. HEW obligations for fellowships, traineeships, and training grants by component: FY 1975 29
B-19. Fellowships, traineeships, and training grants to the 100 universities and colleges receiving the largest amounts: FY 1975 30

Highest Level of Degree Granted: Science and Engineering

B-20. Total obligations by type of control and agency: FY 1975 32
B-21. Total obligations by type of control and activity: FY 1975 33
B-22. Research and development by field of science: FY 1975 34

Total Obligations by Type of Control

B-23. By agency: FY 1975 35
B-24. By geographic division, State, number of recipient institutions, and type of activity: FY 1975 36
B-25. Percent distribution by geographic division, State, and type of activity: FY 1975 41
B-26. To 100 public universities and colleges receiving the largest amounts by agency: FY 1975 44
B-27. To 100 private universities and colleges receiving the largest amounts by agency: FY 1975 46

Institution Listings by State

B-28. Total obligations by type of activity: FY 1975 48
B-29. Total obligations by agency: FY 1975 77
B-30. Research and development by agency: FY 1975 105
B-31. R&D plant by agency: FY 1975 113

UNIVERSITY-ADMINISTERED FEDERALLY FUNDED RESEARCH AND DEVELOPMENT CENTERS (FFRDC's)

B-32. By agency and type of activity: FY 1975 115
B-33. By State, institution, and type of activity: FY 1975 116
B-34. Trends: FY 1963-75 118

NONPROFIT RESEARCH INSTITUTES AND NONPROFIT-ADMINISTERED FEDERALLY FUNDED RESEARCH AND DEVELOPMENT CENTERS (FFRDC's)

B-35. Research and development to independent research institutions, by geographic division, State, institution, and agency: FY 1975 120
B-36. Research and development and R&D plant to FFRDC's administered by nonprofit institutions: FY 1968-75 124
